

Replacement UV lamps for Polytype America SwissQprint printers

Polytype America is the US distributor of UV flatbed printers from SwissQprint. Our experience with SwissQprint replacement lamps is limited. Most likely this is due to the limited popularity of these printers.

SwissQprint printers use two (2) lamps, one on each side of the carriage. Replace both amps at the same time. This will insure equal UV dosage and reduce chance of gloss banding.

We have produced UV curing lamps for the following SwissQprint machines:

Oryz	Impala	Nyala	Impala 2
------	--------	-------	----------

Replacement lamps for Polytype SwissQprint printers include:

Subzero 085H	Subzero 170	Subzero 220
Polytype	UVH4025	6810A20CEC
UVH3023	6510A20C1
