

Replacement UV lamp for Raster, Rastek and EFI printers

TCS Technologies manufactures digital UV curing lamps for virtually all Raster, Rastek and EFI Rastek printers. Machines and models may come and go but their UV lamps live on at TCS Technologies. Most EFI printers are shipped with a Chinese lamp. There is a night and day difference between the OEM lamp and the one we manufacture. You can pay more but you will not find a better UV curing lamp than from TCS Technologies.

Over the years, we have manufactured UV curing lamps for the following Raster, Rastek and EFI Rastek printers:

H650	H652	T600
T660	Daytona	Daytona T600UV
H700	720UVZ	RP-720
RP-720UVZ	T1000	

Replacement UV inkjet lamps include:

H600	H652	02-0042
02-0060	106182	H700
Subzero 055A	Subzero 140A	01-0065
45081143	45081150	45087140
45080308	45097537	402061

UV lamp EFI
